2 Choose Number of Modules

Module Length

Standard Fast Tent length is 5m / 16ft.

Modules are joined with Dutch lacing and rain flap to create shelters of any length.

Fast Tent is manufactured from a 630 gsm heavy duty, flame retardant and UV stabilised polyester reinforced, coated PVC fabric.

What's included?

Fast Tent is a 'Turnkey' system. Each 5m / 16ft long module is supplied ready to go. It can be used standalone or joined with other modules.

ORDER FROM Stock or Customise

Change Your Colour

With a range of 18 colours you can customise the outside and inside look of your tent. Considering highlighting details such as the end walls or doors with a contrasting colour.

Change Your Size

If our standard range of tents don't suit your needs we can design a tent to a customized size or shape.
